

Serial and debugging

Node registration

```
graph RL; A[Node registration] --> B[Serial and debugging];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The box on the right is shaded gray and contains the text 'Node registration'. The box on the left is white with a black border and contains the text 'Serial and debugging'. A black arrow points from the right box to the left box, indicating a flow or dependency from node registration to serial and debugging.
